PROFILE SUMMARY

Computer Science graduate skilled in MERN stack development, with practical experience in building and deploying full-stack applications. Comfortable with backend logic, APIs, and modern frontend design, looking to contribute to impactful projects in a fast-paced development environment.

EDUCATION

- **Centre for Development of Advanced Computing (C-DAC)** Bengaluru, Karnataka
Post Graduate Diploma in Advanced Computing (PG-DAC) — Percentage: 70% Aug 2025 – Feb 2026
- **Technocrats Institute of Technology Excellence** Bhopal, Madhya Pradesh
B.Tech in Computer Science and Engineering — Percentage: 80.01% 2021 – 2025
- **M. P. Convent Hr. Sec. School** Bari Raisen, Madhya Pradesh
Senior Secondary (12th Grade) — Percentage: 64% 2021
- **M. P. Convent Hr. Sec. School** Bari Raisen, Madhya Pradesh
Secondary (10th Grade) — Percentage: 64% 2019

TECHNICAL SKILLS

Programming: Java, JavaScript, C++, TypeScript (Basics)
Web Technologies: ReactJS, NodeJS, Express.js, HTML, CSS, Bootstrap
Databases: MySQL, MongoDB
Concepts: REST APIs, CRUD Operations
Tools: Git, VS Code, Postman

EXPERIENCE

Full Stack Developer Intern, Mealo Solutions Private Limited Remote Dec 2024 – June 2025

Skills: MERN Stack (MongoDB, Express.js, React, Node.js)

- Developed features for a **food delivery and subscription-based platform** connecting users with home chefs and mess providers.
- Built and integrated RESTful APIs to handle **meal subscriptions, order management, and user authentication**.
- Implemented functionalities like **real-time order tracking, meal scheduling, and subscription management**.
- Designed responsive UI components using React to enhance **user experience for browsing and selecting meal plans**.
- Optimized backend services and database queries to ensure **scalable performance and efficient data handling**.

PROJECTS

Smart Car Parking Management System | Aug 2025 – Dec 2025

- Developed a **MERN-stack web application** to automate parking management operations.
- Implemented features such as **slot booking, real-time parking availability, and vehicle entry/exit tracking**.
- Built RESTful APIs using **NodeJS and Express.JS** and managed data using **MongoDB**.
- Designed responsive frontend interfaces using React to enhance user experience and accessibility.
- Optimized system performance and ensured data consistency for concurrent user operations.
- **Source code:** <https://github.com/Anshul660/carParkingManagementSystem>

E-commerce Web Application | Nov 2023 – Mar 2024

- Built an online platform with features like product browsing, shopping cart, and checkout process.
- Developed dynamic and reusable UI components using React for seamless user interaction.
- Integrated **Firebase Authentication** for secure user login and registration.
- Implemented backend services using Node.js and APIs for efficient data handling.
- Managed application state and ensured smooth navigation across different modules.
- **Source code:** <https://github.com/Anshul660/ReactProject/tree/main/e-commerce>

CERTIFICATIONS

- Front-End Web Development (Udemy), Completed: Jan 2024
- React JS Essential Training (LinkedIn Learning), Completed: May 2024
